B. 21 Basics. Overview works

- B. 210 Mathematical basics

B. 22 Algebra. Number theory

- B. 220 Algebra: General
- B. 221 Combinatorics. Graph theory
- B. 222 Number theory. Arithmetic
- B. 223 Number fields and polynomials
- B. 224 Abstract, algebraic geometry
- B. 225 Linear Algebra. Matrix calculation, determinants
- B. 226 Associative and non-associative rings and algebras. Homologous algebra
- B. 227 Group theory and generalizations
- B. 228 Topological groups. Algebras and Liesche theory

B. 23 Analysis. Function theory

- B. 230 Analysis: General
- B. 231 Functions of real variables
- B. 232 Measurement and integration theory
- B. 233 Functions of a complex variable. Riemann surfaces
- B. 234 Functions of several complex variables. Analytical spaces. Holomorphic functions
- B. 235 Special functions. Harmonic analysis
- B. 236 Sequences. Series. Summability. Approximations. Extensions
- B. 237 Fourier analysis

B. 24 Differential and difference equations

- B. 240 Differential equations: General
- B. 241 Potential theory
- B. 242 Ordinary differential equations
- B. 243 Partial differential equations
- B. 244 Finite differences and functional equations
- B. 245 Calculus of variations

B. 25 Integral equations. Integral transformations. Operator theory

- B. 250 Integral equations: General
- B. 251 Integral transformations. Operator theory
- B. 252 Integral equations
- B. 253 Functional analysis. Laplace transform. Banach spaces. Hilbert spaces

B. 26 Geometry. Topology

- B. 260 Geometry: General
- B. 261 Geometry. Fractals
- B. 262 Convex sets and geometric inequalities
- B. 263 Differential geometry. Integral geometry. Tensor calculus
- B. 264 General topology
- B. 265 Algebraic topology. K-theory
- B. 266 Topology and geometry of differentiable manifolds

B. 27 Logic and set theory

- B. 270 Logic: General
- B. 271 Logic and fundamentals
- B. 272 Set theory
- B. 273 Order and lattices
- B. 274 General mathematical systems

B. 28 Probability theory. Mathematical statistics. Numerical Mathematics

- B. 280 Stochastic, statistic: General

B. 31 Questions of physics

- B. 310 Questions of physics: General
- B. 311 Fundamentals of physics
- B. 312 Mathematical methods of physics. Computational physics
- B. 313 Physical practical course
- B. 314 Theoretical physics. Modern physics
- B. 315 Experimental physics. Spectroscopy. Electron microscopy
- B. 316 Physical metrology

B. 32 Mechanics

- B. 320 Mechanics: General
- B. 321 Fundamentals and theory of mechanics of solid and rigid bodies
- B. 322 Mechanics of fluids
 - B. 322.0 Mechanics of fluids: General
 - B. 322.1 Hydrostatic. Fluid movement. Surface phenomena. Osmosis
- B. 323 Mechanics gaseous body
- B. 324 Mechanical vibrations. Sound waves. Acoustics
- B. 325 Mechanics elastic-solid body. Continuum physics

B. 33 Optics

- B. 330 Optics: General
- B. 331 Theory. Basics. Techniques and methods
- B. 332 Geometrical optics. Wave Optics. Light. Colour. Photometry
- B. 333 Nonlinear optics. Quantum optics
- B. 334 Laser physics: laser beams. Laser. Types and properties
- B. 335 Technical appearance. Optical devices. Holography. Light microscopy
- B. 338 Optics: other

B. 34 Thermodynamics

- B. 340 Thermodynamics: General
- B. 341 Theoretical basics
- B. 343 Effect of heat radiation and heat supply. Flame theory
- B. 344 Temperature. Temperature scales. Temperature measurement. Thermometer
- B. 345 Thermodynamics: other

B. 35 Electricity. Magnetism. Electromagnetism

- B. 350 Electricity. Magnetism. Electromagnetism: General
- B. 351 Theory of electricity. General questions of the subject area

Y. 4	Applied Computer Science	172
Y. 5	Artificial Intelligence. Intelligent data analysis	173

Y. 0 General

- Y. 010 Bibliographies
- Y. 020 Biographies. History
- Y. 030 Journals. Series
- Y. 040 Reference books. Table works
- Y. 050 Dictionaries. List of abbreviations. Formula boards
- Y. 060 Teaching aids. Study materials. School books
- Y. 070 Source directories. Compilations. Conferences. Congresses

Y. 1 Foundations of Computer Science. Theoretical Computer Science

- Y. 10 Computer science in relation to people and society
- Y. 11 General and comprehensive works
- Y. 12 Mathematical foundations
- Y. 14 Automata theory

Y. 17 Algorithms and data structures

Y. 2 Computer Engineering

Y. 20 General

Y. 21 Computer architecture

Y. 22 Processors

Y. 23 Peripheral devices and memory

Y. 24 Specific Computer Systems

Y. 26 Parallel data processing

Y. 28 Computer evaluation

Y. 29 Non-electronic data processing

Y. 3 Programming and Software

Y. 31 System software

Y. 311 Operating systems

Y. 311.0 General

Y. 311.1 *NIX

Y. 311.5 Windows

Y. 312 Other System Software

Y. 32 Programming languages

Y. 320 General

Y. 321 Machine-oriented programming languages. Machine language

Y. 322 High-level programming languages

Y. 322.01 Java

Y. 322.03 NET

Y. 322.04 C/C++

Y. 322.13 Markup Languages

Y. 322.14 Scripting languages

Y. 322.20 Other

Y. 33 Software development

Y. 331 Software Engineering

Y. 331.0 Software Engineering for specific systems

Y. 331.1 Programming. Modeling

Y. 331.2 Methods and concepts of Software Engineering

Y. 331.3 User interfaces

Y. 331.4 Software quality

Y. 333 Microprocessor programming

Y. 34 Software systems

Y. 340 General

Y. 341 Software systems A-L

Y. 343 Software systems M-Z

Y. 38 Multimedia systems

Y. 4 Applied Computer Science

Y. 41 Computer graphics

- Y. 42 Text and document processing**

- Y. 43 Information systems**
 - Y. 431 Databases
 - Y. 431.0 General
 - Y. 431.1 Database software
 - Y. 431.2 Relational database systems
 - Y. 431.3 Other database systems
 - Y. 431.4 Distributed databases
 - Y. 434 Information systems in organizations

- Y. 44 Computer simulation**

- Y. 45 IT Management**

- Y. 46 Distributed systems. Web Engineering**
 - Y. 460 General
 - Y. 461 Computer networks
 - Y. 462 Reference architectures
 - Y. 463 Internet. Web Engineering

- Y. 47 IT Security**

- Y. 48 Real-time computing**

- Y. 49 Other applications**

- Y. 5 Artificial Intelligence. Intelligent data analysis**
 - Y. 50 General**

 - Y. 51 Inductive and deductive systems**

 - Y. 52 Machine Learning. Expert systems**
